150 kw
UPS 500 kw
Generating set 500 kw

HANGING POINTS

350 kg on the Knots of the primary beam

EMERGENCY EXITS

4 emergency doors

EXTRA NOTES

The space is equipped with water supply, drainage, and load connections. An outdoor LED wall is installed, featuring a 3.9 mm pixel pitch, measuring 8500 x 1000 mm, with a resolution of 2176 x 256 pixels and a brightness level of 5000 Nits. Both the ground floor and the mezzanine level support a load capacity of 400 kg per square meter. This total white space is characterized by three central columns and offers dual private entrances—one from Piazza Dada and the other from Piazza del Design—which can be integrated depending on availability. The area is well connected to the Gallery space via three large sliding gates. A loft area runs along the length of the space, featuring a long walkway constructed with an iron frame and finished with parquet flooring.
